

A-FIT/RL-25-FLT – Riding Line Fittings, Flow Through

SKU: A-FIT/RL-25-FLT

Description

• The flow through riding line fitting is a casting with a male split clamp coupling on one end and a female split clamp coupling on the other. It is used to join hose lengths and provide a means to suspend them from a trolley. It also provides a hook over which a riding line is passed to haul in the end of the hose rig during conventional fueling. To be used with aluminum split clamps.
