

A-SADL-7-FLT-B/U – Saddles – Flow Through, Type B (Upper or Double Rig)

SKU: A-SADL-7-FLT-B/U

Description

• The Type "B" flow through hose saddle is an aluminum casting with a male split clamp fitting on one end and a female split clamp fitting on the other. It is used to join two sections of fueling at sea hose and provides an attachment point from which the hose rig is supported. To be used with aluminum split clamps.
