

## B-AY-S/P – Probes – Single Assembly

SKU: B-AY-S/P

### Description

- The single probe assembly is used to transfer fuel to ships equipped with a single or double probe receiver. The single probe assembly consists of the probe and the carrier assembly. It contains a self-aligning feature and spring loaded locking mechanisms which lock the probe in a receiver. The single probe has a spring loaded sliding sleeve valve which is actuated as the probe is mated and allows the transfer of fuel.
