H/A-7-REC-104L-LT – Hose Assemblies – Receiver Probe

SKU: H/A-7-REC-104L-LT

Description

- The receiver hose assembly consists of an 8 foot section of 7? wire reinforced hose, two 7? split clamps, one 7? male and female coupling, two 7? O-rings and one 7? female split to 8? flange tailpiece (Optional). It provides a flexible but noncollapsible hose connection between the probe receiver and the fuel riser. Please specify with or without tailpiece when ordering. Hose is built in accordance with MIL-DTL-24565.

Specification Table
